Position Title: Art Consultant

Job Type: Full-time

Work Location: Fully Remote or In-Person

Benefits:

- Access to dental, vision & life insurance plans
- 401(k) retirement plan with matching
- Paid time off (PTO)
- Paid holidays
- Fully remote work environment
- Employer-sponsored health insurance

Spacia Group is looking for an experienced **Art Consultant** to join our team and help develop art programs for hospitality and commercial projects across the country.

This is a hands-on role for someone who understands both **art and design** and knows how to take a project from an initial idea through presentation, revisions, and final artwork. You should be comfortable working directly with clients, managing multiple projects at once, and collaborating with a team to get the work across the finish line.

We are a small, collaborative company, so this isn't a role where you'll be one person in a large department with a very defined lane. We work closely together, share ideas, solve problems, and expect everyone to take ownership of their work.

What You'll Do

- Develop custom and curated art packages for hospitality, commercial, and multifamily projects
- Research and source artwork based on a project's design direction, brand, location, budget, and client preferences
- Develop art concepts and presentations that clearly communicate the direction of a project
- Present artwork and concepts to clients and participate in client meetings and calls
- Take projects through client feedback and revisions while keeping the overall design direction intact
- Make thoughtful recommendations around artwork, framing, substrates, finishes, and production when appropriate
- Work closely with our art team, project management, production, and leadership throughout the life of a project
- Communicate clearly about project status, deadlines, questions, and potential issues
- Manage multiple projects and deadlines while maintaining a high level of accuracy
- Review artwork and specifications carefully before projects move into production
- Help troubleshoot issues and find practical solutions when projects change or don't go according to plan
- Stay current on artists, artwork, design trends, and the hospitality market

What We're Looking For

We're looking for someone with **mid-level to senior experience** who can step into a project and contribute right away.

You should have:

- 4+ years of experience in art consulting, commercial art, interior design, or a closely related field
- A strong understanding of art and design, with a good eye for composition, color, scale, and quality
- Experience developing art packages or presentations for clients
- Experience working with hospitality, commercial, multifamily, or other design-focused projects preferred
- Strong communication and presentation skills
- Excellent organization and follow-through
- The ability to manage several projects and priorities at the same time
- Strong attention to detail, particularly when reviewing artwork, specifications, and client revisions
- Working knowledge of Adobe Creative Suite, particularly Photoshop and InDesign
- Proficiency with Microsoft Office
- The ability to work independently while staying connected and collaborative with a remote team

We Need

- Someone who is comfortable working directly with clients and receiving feedback, including when a project needs to change direction.
- Strong communication skills and the ability to give thoughtful recommendations while also understanding and responding to client needs.
- Someone who can manage multiple projects, deadlines, and revisions without losing track of the details.
- A team player who communicates well, follows through, and is willing to step in where needed.
- Someone who can work independently in a remote environment and keep projects moving without constant oversight.
- A practical approach to problem-solving and the ability to adjust when projects change or challenges come up.
- Someone who is interested in staying in the industry and growing with a company over time.

About Spacia Group

Spacia Group is a privately owned art company specializing in artwork for hospitality and commercial interiors. We work with designers, developers, purchasing groups, and hospitality brands to develop art programs that are creative, practical, and built for the project.

Because we're a smaller company, our team members have a real opportunity to make an impact. You'll work closely with leadership and have visibility into projects from concept through production rather than being limited to one part of the process.

We also value **long-term relationships**, both with our clients and with our team. Many of our employees have been with Spacia for years, and we're looking for someone who is interested in being part of that kind of environment.

To Apply: Please submit your resume and a portfolio to tate@spaciagroup.com. We would also love to hear briefly about your experience working with clients and developing artwork for commercial or hospitality projects.
